

Welcome to church this morning! We're glad you're here, whether participating in person or connecting remotely!

This church – First Church of Christ, Scientist, Albuquerque, New Mexico – is a branch of The Mother Church in Boston and is part of the worldwide Christian Science movement. You are always welcome at our Sunday service and at our Wednesday evening testimony meeting, which begins at 6:30pm.

At the same time as this Sunday service, our Sunday School classes meet in person and online for students up to the age of 20. The Superintendent can work with a young person or parent to get the systems set up for participation. Feel free to reach out to her through the Clerk.

On the Albuquerque Christian Science church webpage, spiritualityabq.com, you'll find lots of helpful information. For example, when you click on the Reading Room tab, you will see the hours our Reading Room is open, where it is located, and what's on the Reading Room "Bulletin Board."

You may be here in person or you may be quietly listening in today using your computer or your phone – but you're certainly not alone. In Mary Baker Eddy's "Manual of the Mother Church," we learn that, "prayers offered in Christian Science churches are for the congregations collectively and exclusively." Along with many other people who have a deep interest in God and in Christian healing, you are sitting right in the middle of a loving church.
