

This church is a branch of The First Church Christ, Scientist in Boston, Massachusetts. Church services like ours are being held throughout the world. Participating in this service brings you not only together with this church family, but an international church family that is part of a worldwide Christian Science movement. A movement inspired by Mary Baker Eddy's love for the teachings and actions of Christ Jesus, and dedicated to the peace, health and prosperity of all mankind. You, your family, and friends are lovingly invited to attend our Sunday services and our Wednesday evening testimonial meetings.

If you are new to Christian Science or new to this church, you will want to know, that each Wednesday evening, at 6:30, there is an informal discussion being held in the Sunday School where you can ask questions and learn more about Christian Science and the many ways in which it inspires and heals. Then at 7:30 we have a testimony meeting where you will hear how others are blessed by their study.

You are also invited to pray and study in our Reading Room. It is a haven for finding answers to life's harder questions, securing a more permanent sense of peace and establishing a renewed and lasting sense of health. The Reading Room is open six days a week and offers Bibles and Christian Science literature to read, borrow, or purchase. The librarian and attendants are there to assist you and support you in your study."
